

Mahesh Raskar

Full-Stack Developer

Mahesh-Raskar@outlook.com | +91 90213 29710 | Pune, Maharashtra, India

Mahesh Raskar | GitHub: Mahesh Raskar

Professional Summary

Full-Stack Developer with hands-on experience building responsive web and mobile applications using React.js, React Native, JavaScript, TypeScript, Node.js, Express.js, Django, FastAPI, MongoDB, MySQL, Firebase, AWS, Azure, and Google Cloud. Experienced in REST API development, JWT authentication, cloud deployment, CI/CD, database optimization, Agile development, and scalable application architecture.

Technical Skills

Programming Languages: JavaScript, TypeScript, Java, C#, SQL, HTML5, CSS3

Frontend: React.js, React Native, Tailwind CSS, Vite, Responsive Web Design

Backend: Node.js, Express.js, Django, FastAPI, ASP.NET, REST APIs, JWT Authentication

Databases: MongoDB, Azure MySQL, Firebase

Cloud and Deployment: AWS EC2, AWS S3, AWS Lambda, AWS CloudFormation, Azure, Google Cloud, Render, CI/CD

Tools and Technologies: Git, GitHub, Android Studio, Google Maps API, Geolocation API, IoT, GPS, Sensors

Practices: Agile, Peer Code Reviews, Authentication, Authorization, API Integration, Database Optimization

Professional Experience

Hruta Solutions

Full-Stack Developer Intern

Pune, Maharashtra

March 2025 - July 2025

- Developed a responsive web application using React.js and Tailwind CSS, improving usability and user engagement across devices.
- Designed and implemented RESTful APIs using Node.js and Express.js for reliable frontend-backend communication and data handling.
- Optimized MongoDB queries and data operations, reducing application response time by 20%.
- Implemented JWT-based authentication and authorization to secure more than 500 user accounts.
- Deployed production workloads using AWS S3 and EC2 while supporting 99.9% application uptime.
- Automated infrastructure deployment and scaling workflows with AWS CloudFormation and AWS Lambda.
- Collaborated in Agile development cycles, participated in peer reviews, and improved code quality through team-based delivery practices.

Projects

StackHack - Full-Stack Learning Platform

June 2025 - Present

- Developed a learning platform for engineering students to access question papers, study materials, and video lectures from a centralized application.
- Built a responsive frontend using React, TypeScript, Tailwind CSS, and Vite.
- Developed secure backend services and REST APIs using Django and FastAPI.
- Integrated Azure MySQL for cloud-based data storage and deployed the application on Render using a CI/CD workflow.
- Technologies:** React, TypeScript, Tailwind CSS, Vite, Django, FastAPI, Azure MySQL, Render, CI/CD.
- Links:** Project Link; Website.

Wildlife Tracking System - IoT, Cloud and Web Application

June 2024

- Built an IoT-based wildlife monitoring solution using GPS and sensors to track animal movement and support anti-poaching activities.
- Developed a responsive React and TypeScript frontend using Vite and Tailwind CSS.
- Implemented real-time data storage, authentication, and cloud functions using Firebase and Google Cloud.
- Integrated Google Maps and Geolocation APIs for live tracking, location visualization, and alert generation.
- Technologies:** React, TypeScript, Firebase, Google Cloud, Google Maps API, Geolocation API, IoT, GPS, Sensors, Tailwind CSS.
- GitHub:** github.com/gwc-sys/StreamHub

Certifications

AWS Academy Machine Learning Foundations

July 2022

Education

K J College of Engineering & Management Research

Pune

Bachelor of Engineering in Electronics & Telecommunication Engineering

2023 - Present

Marathwada Mitra Mandal's College of Engineering

Diploma in Computer Engineering - 80%

Completed 2023

Adarsh Shikshan Sanstha College of Commerce and Science

Higher Secondary Education (11th and 12th)

June 2017 - March 2019

New English School

Secondary School Certificate (SSC) - 77%

Completed 2016

Languages and Interests

Languages: Marathi (Native), Hindi, English

Interests: Trekking, Traveling
